This Matter Of Taxes

This year witnessed the largest tax cuts in the history of the federal government. Virtually everyone will feel the benefits—farmers, businessmen, salaried employees, people who receive income in the form of dividends, hourly workers, working mothers, and so on. All the excise taxes were reduced save the historic ones on liquor and tobacco. On top of that, the federal tax laws were given an all-out overhaul for the first time in 75 years.

That adds up to good news. It means that individuals and enterprise will be able to keep many billions that would have gone to Washington under the old tax rates and laws. However, there is a big fly in the ointment, in the form of state government. Next year if current plans are consummated, the states as a whole will start taking bigger and bigger tax bites. Should that happen, obviously, a substantial part of the benefits of the federal reductions will be lost to the taxpayers.

The Wall Street Journal tells the story, in a feature article by-lined by Lindley H. Clark, Jr. In the 1953 fiscal year, state general expenditures outran general revenues by nearly \$299,000,000. It is believed that the complete 1954 figures, which aren't yet available, will show a similar trend. As Mr. Clark explains it, "... the lawmakers still insist on spending more money than the collectors can rake in from the taxpayers."

Mr. Clark then sums up some of the current fiscal troubles that are cited by state tax officials and administrators. The federal government has moved in on sources of revenue that once were exclusive state prerogatives—the gasoline tax is an example of this. In some states, sales tax revenues have been below last year's level, and this tax is the biggest money-producer the states now have, accounting for some 23 per cent of the total. State income tax receipts have also tended downward. Local governments are asking more and more state aid, for such purposes as schools, roads and welfare, and this demand is more likely to increase than to decrease. The materials shortages during the war virtually eliminated state building and improvement activity, and so that load is extremely heavy now.

Where will states go in search of more money? The answer, according to Mr. Clark is that "states generally are trying to pry all the revenue they can from existing taxes before trying new levies. ... State officials find the hunt for new revenue sources a difficult one". Thus, the pressure is on to squeeze more money from such sources as gas taxes, sales taxes, and prop-

erty taxes. Also, attention is being given to tightening up tax law enforcement.

Last fiscal year, total state tax collections hit a record \$11,100,000,000. That was five per cent above '53 and 10 percent above '52. And next year, to quote Mr. Clark once more, "nearly all legislatures will meet in either regular or special sessions and indications are they'll be hammering out new tax laws by the hundreds."

The moral that can be drawn is simple. Most of us think of tax matters primarily in respect to federal levies and policies—but state fiscal affairs are mighty important too.

It seems to be the general opinion that Northern Michigan never had a pleasanter summer and fall than this year as far as weather is concerned. This fall especially has been quite ideal. There have been some rains but those have been followed by warm weather. This morning gave us our very first snow and it was hardly more than a flurry. Mingled in the day's weather was, besides snow, a little rain, some hail and more or less sunshine. It is only by looking at the date on the calendar that we may be assured that winter is just around the corner.

Meeting of the Board of Supervisors for the County of Crawford, held in the Court House in the City of Grayling on the 12th day of October, 1954.
Meeting was called to order by Chairman Wm. T. Miller.
Roll call. All members present.
Minutes of the meeting of the 11th day of October were read and approved.
Moved by McMillan and supported by Millikin that the Claims and Accounts be placed in the hands of the Claims and Accounts Committee. Roll call. All Yeas. Motion carried.
Moved by Murphy and supported by Hartman that the matter of the Budget be placed in the hands of the Ways and Means Committee. Roll call. All Yeas. Motion carried.
Resolution offered by Resolution Committee:
Moved by Roberts and supported by McMillan that the following resolution be adopted:
Be It Resolved by the Second District of Michigan Supervisors Association, That there now exists a deplorable situation in the State of Michigan in regard to the almost total lack, in most sections of the State, of facilities for the care of dependent and neglected children and of those who are delinquent or maladjusted socially.
2. That this problem is too large and expensive for any, but the most populous counties, to solve by themselves individually, because the cost of constructing such a maintaining and operating such a facility according to law governing such is prohibitive.
3. That it is the opinion of this meeting that this problem can be best solved by the establishment of regional centers for the care of dependent and neglected children and of those who are delinquent or maladjusted socially.
4. That the State of Michigan should, through its proper authorities, build and maintain such centers, since to attempt to solve the problem among the counties served by the several centers would be productive of disagreement and a source of almost constant discord.
5. That these centers should be constructed, equipped and staffed as to treat socially maladjusted children, so called juvenile delinquents, to take care of dependent and neglected children; to arrange for boarding children in proper homes; and to do any other act that may be beneficial to those children committed to the custody of such center for any cause whatever.
6. That such centers be constructed in localities in close proximity to medical, hospital, and psychiatric services; and that the site of such centers and the counties to be served by each shall be determined and designated by the State Department of Social Welfare and the State Department of Health.
7. That the center be managed and operated by the State Department of Social Welfare.
8. That the cost of operation of each such center be paid by the State out of its general fund; and a per diem charge made for each child committed to such center, to be paid out of the general fund of the county of residence of such child; Provided, that the per diem charge for any child shall not be more than one-half of the average per capita cost of board and care in all such centers, or boarding homes, to be based upon the cost of the preceding year for such service.
9. That a copy of this resolution be sent to Governor G. Mennen Williams, State Department of Social Welfare, Lansing, Michigan, Association of Probate Judges.
Resolution.
WHEREAS, the Second District of the Michigan Supervisors Association has adopted a Resolution, a copy of which is hereto attached, concerning the need of this area for facilities to care for dependent and neglected children, and
WHEREAS, the Board of Supervisors for the County of Crawford, State of Michigan, is cognizant of the facts set forth in said resolution and approved resolution;
NOW THEREFORE BE IT RESOLVED by the said Board of Supervisors of the County of Crawford, State of Michigan, that:
1. Said Resolution, as attached hereto, is adopted.
2. A copy of this Resolution, together with the attached Resolution of the Second District of Michigan Supervisors Association, be sent to Representative Charles Peltz and State Senator Charles Peltz, who will act as Governor Mennen Williams, and the State Department of Social Welfare.

Name Local Census Takers

John H. Peterson of Grayling and Donald C. Dobson of Maple Forest have been appointed as enumerators to cover Crawford County for the 1954 Census of Agriculture. It was announced by the U. S. Bureau of the Agriculture Field Office of the Bureau of the Census in Washington.

Enumerators from Crawford, Otsego, Montmorency and Oscoda Counties have just completed a training course conducted in Lewisville by the U. S. Bureau of the Census under the direction of Joseph A. Eckel of Johannesburg, crew leader.

Starting October 25 the enumerators started to visit the farms in the districts assigned to them to collect the completed Census of Agriculture. Questionnaires which were mailed to all farmers in the area.

It is urgently requested that farmers co-operate by having their questionnaire form filled out when the census taker calls. This will save time both for the farmer and the enumerator.

Throughout the nation 31,000 enumerators working out of 118 temporary field offices will be calling at the more than five million farms of the nation.

The 1954 farm census will provide authoritative basic information regarding farms, farm resources, livestock, farm land and farm products for each county and state in the nation.

The farm census provides benchmarks for most of the current estimates of crop and livestock production by the U. S. Department of Agriculture and census figures for maintaining reasonable accuracy in the government's current crop, livestock and other agricultural estimates.

It also provides the data for development and measurement of progress in county extension and educational programs and provides the bases for planning and conducting agricultural research at state agricultural colleges.

Benefit Dinner For Pattie Gola Gets Wide Support

A benefit dinner for six-year-old Pattie Gola that promises to be one of the biggest in the history of the Lake community, will be held Monday night, Nov. 8 at the Lumberlost Hotel.

Pattie, who is the daughter of Mr. and Mrs. Joe Gola of Prudenville, was nearly burned to death several weeks ago. Since then she has been slowly mending in University Hospital at Ann Arbor.

The big hospital bill and business problems hit the Gola family at the same time. Turning to their aid is the Crawford-Rescommon Table Top Association, of which Mr. Gola is a member.

Association President Ralph Froth of Houghton Lake said Wednesday that the Michigan Table Top organization had been interested in Pattie's benefit party and that members from all over the state will do their bit.

Over 100 Ladies Enjoy Camp Day

Women from all corners of the Antrim, Kalkaska, Crawford Home Demonstration District attended the first District Camp Day at Camp Hayo-Went-Ha on Wednesday, October 13. Over 100 women attended this meeting and voted to make it an annual outing.

Camp for "Mom" began at 10:00 A. M. and the day was packed full for "Mom" until 3:00 P. M. The meeting was held in the camp dining room. The kitchen was available to pop prepared into the oven. This meant we had a hot noon meal.

Fun for the day was tooling of copper and making copper pictures. Mrs. Wm. VonSee, Mrs. Lyle Kniss, Mrs. Earl Wilson and Mrs. Roy Dunson assisted Home Agent, Mary Van Aillsburg, in teaching the project. Christmas gift suggestions were displayed around the fireplace and many women took patterns.

From where I sit ... by Joe Marsh

Our Town Makes Good in New York City

Couldn't place a new subscriber named Clark, but I found out who they were last week when they dropped in The Clarion's office.

"We're native New Yorkers," Mrs. Clark said, "and all our friends there are originally from other places. We always felt left out when they talked about things 'back home.'"

"That's why we 'adopted' your town and to get all the news we subscribed to The Clarion. Now we have a 'back home' to talk about—and we think it's the most wonderful town there is!"

From where I sit, just about everyone thinks his own town is best. Picking your town comes natural. The right to do this "picking," though, is what really counts. Whether it's a favorite town, a favorite cut of meat, or even a choice of a beverage—say between beer and buttermilk, it's respecting the right to this freedom of choice that makes a good neighbor. I hope you subscribe to that!
